To Whom it May Concern:

Please accept this letter as my sincere recommendation of Lee Malvo. I had the opportunity to have Lee in AP Biology, earlier this semester. I was initially concerned about a student entering late into an AP level course. However, I found Lee to be extremely bright and hardworking. Lee has a genuine curiosity and interest in science. He managed to go back and read all the material assigned before he entered the class. Lee was very engaged in all class discussions and added a great spark to our class. Lee also showed a great work ethic, always looking deeply and critically at issues in science. Lee managed to get the highest grade on an exam, after only being in class one week. Lee had an A- while in attendance. Lee often came to class early to talk about issues in science, particularly around the issues of stem cell research.

I would gladly have Lee return to Bellingham High School, and I would be honored to have the opportunity to have him in my class.

Sincerely,

Beth Crissy-AP Biology

Please do not hesitate to call if I can be of further assistance.
